Writing the application

A Forms: check them carefully - they are binding!

choose panel well - names available online

B1: only document available to panel at 1st round
must be complete
concise
convincing (use preliminary data)
catching (use figures)

highlight strong points – address weak points – be specific
stress novelty, impact

B2: thorough, well documented, include preliminary data where possible

Prepare it in good time

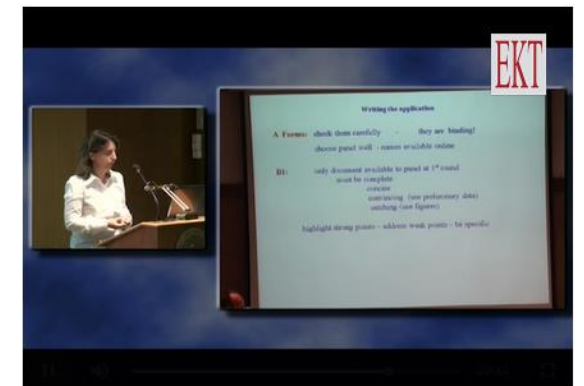

get opinions from colleagues (also from different fields)

submit well in advance (you can replace up to the deadline)

Research Project

Ground-breaking nature, ambition and feasibility

RELEVANCE

Ground-breaking nature and potential impact of the research project

- To what extent does the proposed research address **important challenges**?
- To what extent are the objectives **ambitious and beyond the state of the art** (e.g. novel concepts and approaches or development across disciplines)?
- To what extent is the proposed research **high risk/high gain**?

NOVELTY

IMPACT

Scientific Approach

- To what extent is the outlined scientific approach **feasible** (based on the Extended Synopsis)?
- To what extent is the proposed research methodology appropriate to achieve the goals of the project (based on the full Scientific Proposal)? (**FEASIBILITY**)
- To what extent does the proposal involve the development of novel methodology (based on the full Scientific Proposal)? (**GROUNDBREAKING NATURE**)
- To what extent are the proposed timescales and resources necessary and properly justified (based on the full Scientific Proposal)? (**FEASIBILITY**)

ABOUT ERC

HOW I GOT MY ERC GRANT - DI MIKLOS ADARI

Are you a **scientist** who wants to **consolidate** your research team and continuing to develop a successful Consolidator Grant could be for you. You can already have an independent, excellent research team and want to...

Who can apply?

Researchers of any nationality with **7-12 years of experience since completion** of a PhD (Extensions are possible under certain circumstances — see the latest **ERC Work Programme**), a scientific track record showing great promise and an excellent research proposal.

What proposals are eligible?

- Criteria**
Applications can be made in **any field of research**. The ERC's grants operate on a 'bottom-up' basis without predetermined priorities.
- Location**
Research must be conducted in a **public or private research organisation** (known as a Host Institution/HI). It could be the HI where the applicant already works, or any other HI located in one of the **EU Member States or associated countries**
- Host Institution**
Applications for an ERC grant must be submitted by a single Principal Investigator (PI) in conjunction with and on behalf of their Host Institution, called the applicant legal entity. Grants are awarded to the Host Institution with the explicit commitment that this institution offers appropriate conditions for the Principal Investigator independently to

ANNEX 2: COMMITMENT OF THE HOST INSTITUTION FOR ERC CALLS 2018^{45, 46}

COMMITMENT OF THE HOST INSTITUTION FOR ERC CALLS 2018
(Print on paper bearing the official letterhead of the host institution)

The *(please fill in here the name of the legal entity that is associated to the proposal and may host the principal investigator and the project in case the application is successful)*, which is the applicant legal entity, confirms its intention to sign a supplementary agreement with *(please fill in here the name of the principal investigator)* in which the obligations listed below will be addressed should the proposal entitled

(insert name of the proposal) be retained.

Performance obligations of the applicant legal entity that will become the beneficiary of the H2020 ERC Grant Agreement (hereinafter referred to as the Agreement), should the proposal be retained and the preparation of the Agreement be successfully concluded:

The applicant legal entity commits itself to hosting and engaging the principal investigator for the duration of the grant to:

- a) ensure that the work will be performed under the scientific guidance of the principal investigator who is expected to devote:
 - in the case of a Starting Grant at least 50% of her/his total working time to the ERC-funded project (action) and spend at least 50% of her/his total working time in an EU Member State or associated country;
 - in the case of a Consolidator Grant at least 40% of her/his total working time to the ERC-funded project (action) and spend at least 50% of her/his total working time in an EU Member State or associated country;

⁴⁵ A signed copy of the signed statement should be uploaded electronically via the Participant Portal Submission Services in PDF format.
⁴⁶ The statement of commitment of the host institution refers to most obligations of the host institution, which are stated in the ERC Model Grant Agreement (MGA). The ERC MGA is available on the participant portal: http://ec.europa.eu/erc/participants/portal/desktop/en/funding/information_docs/ercmga2020-2018.pdf. The reference to the time commitment of the Principal Investigator is stated in the ERC Grant Programme 2018.
⁴⁷ This statement (on letterhead paper) shall be signed by the institution's legal representative and stating their name, function, e-mail address and stamp of the institution.

- in the case of an Advanced Grant at least 50% of her/his total working time to the ERC-funded project (action) and spend at least 50% of her/his total working time in an EU Member State or associated country;
- b) carry out the work to be performed, as it will be identified in Annex 1 of the Agreement, taking into consideration the specific role of the principal investigator;
- c) enter — before signature of the Agreement — into a 'supplementary agreement' with the principal investigator, that specifies the obligation of the applicant legal entity to meet its obligations under the Agreement;
- d) provide the principal investigator with a copy of the signed Agreement;
- e) guarantee the principal investigator's scientific independence, in particular for the:
 - i) use of the budget to achieve the scientific objectives;
 - ii) authority to publish as senior author and invite as co-authors those who have contributed substantially to the work;
 - iii) preparation of scientific reports for the project (action);
 - iv) selection and supervision of the other team members (hosted and engaged by the applicant legal entity or other legal entities), in line with the profiles needed to conduct the research and in accordance with the applicant legal entity's usual management practices;
 - v) possibility to apply independently for funding;
 - vi) access to appropriate space and facilities for conducting the research;
- f) provide — during the implementation of the project (action) — research support to the principal investigator and the team members (regarding infrastructure, equipment, access rights, products and other services necessary for conducting the research);
- g) support the principal investigator and provide administrative assistance, in particular for the:
 - i) general management of the work and her/his team
 - ii) scientific reporting, especially ensuring that the team members read their scientific results to the principal investigator;
 - iii) financial reporting, especially providing timely and clear financial information;
 - iv) application of the applicant legal entity's usual management practices;
 - v) general logistics of the project (action);
 - vi) access to the electronic exchange system (see Article 52 of the Agreement);
- h) inform the principal investigator immediately (in writing) of any event or circumstances likely to affect the Agreement (see Article 17 of the Agreement);
- i) ensure that the principal investigator enjoys adequate:
 - 1) conditions for annual, sickness and parental leave;

ERC proposal: ABSTRACT

Proposal Full Title¶

PROPOSAL ACRONYM¶

Cover Page:¶

- > Name of the Principal Investigator (PI)¶
- > Name of the PI's host institution for the project¶
- > Proposal duration in months¶

Clear & concise, avoid confidential information

- The first contact with your proposal
- Transmit enthusiasm, ambition, clarity of ideas
- Reviewed by specialists & non-specialists - Make it attractive & understood by everyone!
- It can help to write part B2
- Find an attractive acronym

Proposal summary (identical to the abstract from the online proposal submission forms, section 1).¶

The abstract (summary) should, at a glance, provide the reader with a clear understanding of the objectives of the research proposal and how they will be achieved. The abstract will be used as the short description of your research proposal in the evaluation process and in communications to contact in particular the potential remote referees and/or inform the Commission and/or the programme management committees and/or relevant national funding agencies (provided you give permission to do so where requested in the online proposal submission forms, section 1). It must therefore be short and precise and should not contain confidential information.¶

Please use plain typed text, avoiding formulae and other special characters. The abstract must be written in English. There is a limit of 2000 characters (spaces and line breaks included).¶

Justify interdisciplinary nature!

Explain and justify the cross-panel or cross domain nature of your proposal, if a secondary panel is indicated in the online proposal submission forms. There is a limit of 1000 characters, spaces and line breaks included.¶

ERC proposal: EXTENDED SYNOPSIS

- The first paragraph: project & PI excellence
- Clear description of the objectives, methodology & expected results (risks - contingency plan)
- The objectives can be organized in Work Packages if methodologically it makes sense.
- Explanatory diagrams
- Team: PI, Team members and external collaborators
- Strategic use of references: Use own references in the state of the art + other authors (evaluators).

EKT: ERC National Contact Point ERC proposal: PI (CV + TRACK RECORD)

- Independence
- CLARITY
- QUALITY vs QUANTITY
- Scientific trajectory that endorses the project proposal
- Numbers are fine but explain your contributions
- Do not take anything for granted: the panel may not know if your merits are relevant
- Post-doctoral positions
- Contribution in each stage of the research career: explains the "gaps"

**RESEARCHER/
PI**

COMMON MISTAKES:

- Lack of coherence between scientific career & project
- Absence of necessary competences of PI
- Information badly structured

EKT: ERC National Contact Point ERC proposal: FULL PROPOSAL (B2)

Task	Description	Milestones
1. State of the art	Review of existing literature and patents in the field of [topic].	Completion of literature review by [date].
2. Objectives	Define the research objectives and the expected outcomes.	Finalization of the research plan by [date].
3. Methodology	Describe the experimental and theoretical methods to be used.	Completion of the methodology section by [date].
4. Resources	Identify the personnel and budget required for the project.	Finalization of the budget table by [date].

STATE OF THE ART & OBJECTIVES

- Expand what is mentioned in B1
- Structured and clear objectives

METHODOLOGY

- Explain methodology in relation with the state of the art
- Explain the tasks
- Contingency plans

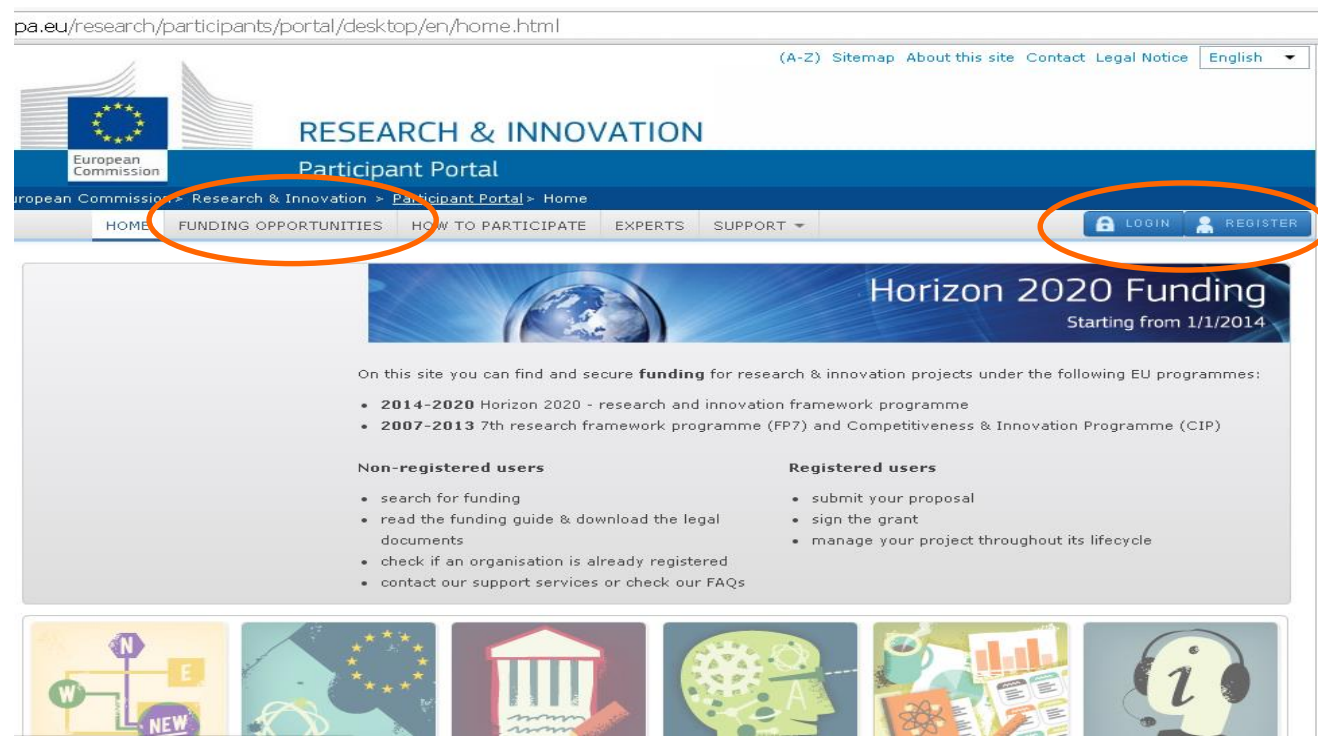

RESOURCES

- Explain well the collaborations and participation of other entities, if applicable
- Budget table suitable for the project
